## Advertisers press GMA on taxes

**Manila, Nov. 14 (Inquirer.net).** The Philippine Advertising Association (PAA) has filed a complaint with the Department of Justice (DOJ) against GMA-7 for allegedly failing to pay taxes on its advertising revenue. The PAA claims that GMA-7 has been evading taxes for several years, and that this has caused significant financial damage to the industry. The PAA is seeking a court order compelling GMA-7 to pay the taxes and to provide compensation for the damages suffered by its members.

The PAA is a non-profit organization that represents the interests of advertising agencies and advertisers in the Philippines. It claims that GMA-7's failure to pay taxes is a violation of the Tax Code and that it has caused significant financial damage to the industry. The PAA is seeking a court order compelling GMA-7 to pay the taxes and to provide compensation for the damages suffered by its members.

## Quit, Noyen dared

**Manila, Nov. 14 (Inquirer.net).** President Gloria Macapagal Arroyo has dared the opposition to quit the political arena. She said that the opposition has failed to provide a credible alternative to her administration and that they are only interested in power for its own sake. She urged them to focus on their constituents and to work for the betterment of the country.

The President's statement came in the wake of a series of protests and rallies organized by the opposition. She said that she was confident in her administration's ability to lead the country to a brighter future and that she was willing to accept any challenge.

## De Guzman's inquiry

**Manila, Nov. 14 (Inquirer.net).** The Department of Justice (DOJ) has announced that it will conduct an inquiry into the alleged involvement of Senator De Guzman in a controversial transaction. The DOJ said that it received information that De Guzman had been involved in a deal that involved the sale of government land. The DOJ is seeking to determine whether De Guzman violated any laws or regulations.

The inquiry is part of a larger investigation into the activities of De Guzman and his associates. The DOJ is also looking into the possibility that De Guzman may have been involved in other transactions that involved the sale of government land.

The authors of the paper also find that women have a higher probability of being employed in the private sector than men. This is true for all countries, but the effect is stronger in Germany and France than in the United Kingdom. The authors suggest that this may be due to the fact that women are more likely to be employed in the private sector in countries where the public sector is larger.

These authors' findings suggest that the use of the word "cancer" in the media is often misleading and can lead to unnecessary fear and anxiety. They recommend that the media should use more accurate and less sensational language when reporting on cancer.

### Councillor seeks \$1 hike in price of movie tickets

**The Future Is Now**

The next month, in April 1977, the first meeting of the group's steering committee was held. The steering committee was composed of 12 members, six from the steering group and six from the steering committee. The steering committee was composed of 12 members, six from the steering group and six from the steering committee.

### Additional ports

Other international airports in Mexico receive passengers from the additional ports on the Mexican coast.

The main air route from the United States to Mexico is through the Mexico City airport. This is the only airport in the country with direct flights to the United States.

Other cities in Mexico have a number of airlines that fly to the United States. These airlines are: American, Delta, United, and Southwest. These airlines fly to the United States from Mexico City, Cancun, and Los Angeles.

Figure 4-44-45: Spine

There are a number of reasons why the results are different. First, a higher  $\beta$  value is also associated with higher  $\alpha$  and  $\gamma$  values. The lower  $\beta$  value in the case of the  $\beta$ -value model is due to the fact that the  $\beta$ -value model is based on the  $\beta$ -value of the  $\beta$ -value model, which is not the case for the  $\beta$ -value model.

## Britain thwarts 9/11-style terror attacks in London

PHILIPPINE DAILY EXPLORER  
MONDAY, JULY 19, 2004  
BY JAMES  
LONDON (AP) — British security forces have thwarted a series of terror attacks in London, including a plot to blow up the London Underground, and a plot to attack the British Parliament.

## US warns of attacks in India

WASHINGTON (AP) — The United States has warned India of a possible terrorist attack, saying it has received intelligence that a group of extremists is planning to attack the Indian capital, New Delhi, in the near future.

# Iran halts key nuclear work to avoid sanctions

Iran has announced that it will suspend its enrichment of uranium, a key step in developing nuclear power, in order to avoid international sanctions. The move comes in response to demands from the United States and other nations for Iran to halt its nuclear program. Iran's Foreign Minister, Manouchehr Mottaki, stated that the country's nuclear program is peaceful and aimed at developing energy. He added that Iran is willing to engage in dialogue with the international community to resolve the issue.

**Iran, starts by election date despite violence**

## How Tingguians protect forests

By Anne Bay Pimentel

**B**efore the 1980s, the Tingguian people of the Cordillera region in northern Luzon, Philippines, lived in a forested area that was used as a hunting ground.

After the 1980s, the Tingguian people began to live in a more permanent settlement. They built houses and started to grow crops. The forest was still there, but it was being used differently. The Tingguian people were still hunting, but they were also using the forest for other purposes. They were using the forest for their livelihood. They were using the forest for their culture. They were using the forest for their identity. They were using the forest for their future.

But they were not using the forest for the same reasons as before. They were not using the forest for hunting. They were not using the forest for their culture. They were not using the forest for their identity. They were not using the forest for their future. They were using the forest for a different purpose. They were using the forest for a different reason. They were using the forest for a different identity. They were using the forest for a different future.

Figure 1. A schematic diagram of the experimental design. The subjects were divided into two groups: the control group and the experimental group. The control group received a standard diet and water, while the experimental group received a diet supplemented with 0.5% of the test substance. The subjects were then subjected to a series of tests, including a baseline test, a test with the test substance, and a test with a different substance. The results of the tests were compared between the two groups.

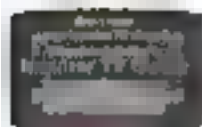

Figure 1 is a scatter plot showing the relationship between the number of children in the household (x-axis) and the number of children in the neighborhood (y-axis). The x-axis ranges from 0 to 10, and the y-axis ranges from 0 to 10. Data points are plotted for various household sizes, with a general upward trend. A legend indicates that points with a dot represent 'Number of children in the household' and points without a dot represent 'Number of children in the neighborhood'.

Fig. 1. The effect of the concentration of the solution of the initiator on the rate of polymerization of  $\alpha$ -methylstyrene in the presence of  $\text{Cu}^{2+}$  ions. The concentration of the monomer was 0.05 mole/l. The temperature was 50°C. The concentration of the initiator was 0.001 mole/l. The concentration of the  $\text{Cu}^{2+}$  ions was 0.001 mole/l. The concentration of the  $\text{Cu}^{2+}$  ions was 0.001 mole/l.

diffusion and a

The first of these is the fact that the
 system is not a simple one. It is a
 complex system, and it is not
 possible to describe it in a
 simple way. It is a system
 that is constantly changing,
 and it is not possible to
 predict its future behavior.
 It is a system that is
 constantly evolving, and it
 is not possible to
 predict its future
 behavior.

# BSP, banks putting up cash management center

## Genebra buys into Thai firm

**By Marissa L. Sison**

Genebra, a leading Philippine bank, has acquired a 10 percent stake in Thai bank, Bangkok City United Bank, to expand its regional presence. The acquisition is part of a larger strategy to strengthen its ties with Southeast Asian financial institutions.

**By Marissa L. Sison**

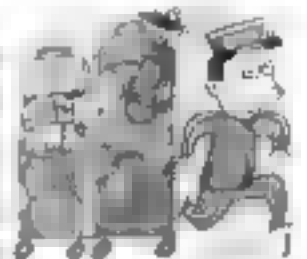

The BSP and several banks are collaborating to establish a new cash management center. This initiative aims to streamline financial operations and improve the efficiency of cash transactions across the country.

The new center will serve as a hub for cash management, providing a centralized platform for banks and businesses. It is expected to significantly reduce processing times and enhance the security of cash transactions.

## Bayantel expansion OKd

**By Marissa L. Sison**

Bayantel's expansion plans have been approved by the relevant regulatory bodies. The company is set to launch new services and expand its network to reach more customers across the Philippines.

## Metro Manila hotels occupancy up 18.5%

Hotels in Metro Manila are reporting a significant increase in occupancy rates, up by 18.5% compared to the previous period. This growth is attributed to a combination of factors, including increased tourism and local business activity.

## Growing risks?

## S&P expected to raise ratings on Mercon

Standard & Poor's (S&P) is expected to raise its ratings for Mercon, reflecting the company's improved financial performance and operational efficiency. This move is seen as a positive indicator of Mercon's growth prospects.

## Equitable PCI approves merger of 2 subsidiaries

Equitable PCI has approved the merger of two of its subsidiaries, a move aimed at consolidating resources and improving overall corporate performance. The merger is expected to be completed in the near future.

# The King James footwear

By David H. Jordan  
2003 Entertainment Weekly

**W**HILE LeBron James made his debut with the Cleveland Cavaliers last night, his new sneakers, the LeBron James Signature 1, are already making waves in the sneaker world.

The shoes, which feature a white upper with black and red accents, are the first of a new line of sneakers that will be released over the next few months.

The sneakers feature the LeBron James Signature 1 logo, which is a stylized 'L' and 'J' that forms a basketball.

The sneakers are available in a variety of colors, including white, black, and red.

The sneakers are available at Foot Locker and other retail stores.

The sneakers are available in a variety of sizes, from men's 6 to men's 14.

## To be young, gifted and tech-savvy

By [Name] [Last Name]

It's not just the kids who are tech-savvy anymore. It's the adults, too. And they're not just using technology to stay connected. They're using it to stay young.

It's not just the kids who are tech-savvy anymore. It's the adults, too. And they're not just using technology to stay connected. They're using it to stay young.

Adults are using technology to stay young, not just to stay connected. (Photo by [Name])

It's not just the kids who are tech-savvy anymore. It's the adults, too. And they're not just using technology to stay connected. They're using it to stay young.
